AASEC 2020 Review Results

Paper 1 - Full Paper FP-640

Bibliometric Analysis of Qur'an Studies Development in International Publications on Scopus Database

Husnul Qodim, Deni Miharja, Busro, Ilim Abdul Halim, Dadang Darmawan

Recommendation

Revision Required

Specific Comments:

The presented paper reports the development of Quran studies based on research publications. The topics are more interesting since the research object was the Holy Book of the most fast-growing religion. However, authors need to address clarity for the presented paper. The authors need to revise the paper based on reviewer comments at review files.

Paper 2 - Full Paper FP-131

Design Control System Using Gesture Control On Arduino Based Robot Warfare

Chandra Herkariawan, Nur Rachman Supadmana Muda, Desyderius Minggu, Eko Kuncoro, Riky Agustiady, Mochamad Luthfi Nazif Suryana

Recommendation

Revision Required

Specific Comments:

Paper was written in Bahasa Indonesia. Since it will be published in the International Journal, the submitted paper needs to be written in English using the publisher format. The submitted paper discusses the development of the Robot Controller using Arduino. However, In the submitter paper, it is not clearly explained how the gesture controller was developed. There is no section that explained clearly the development of Gesture Control that being used as navigation. These sections are important since it's the proposed method. The submitted need to be revised based on reviewer comments at the attached review files.

Paper 3 - Full Paper FP-1156

Environmental Quality Model to Have Sustainable Environment

Desy Safitri (a), Arita Marini (b), Sri Nuraini (c), Taufik Rihatno (c), Budi Aman (a), Nurzengky Ibrahim (a)*

Recommendation

Revision Required

Specific Comments:

The submitted paper discussed the use of the Round Club model to solve issues on social ecology related. The idea of using a proposed model to find an alternative solution on environment-related issues is quite interesting. However, for the sake of clarity for broader readers, authors are suggested to cover comments from the reviewer that can be found at the review file.
