## Full Paragraph

### 1. Point by Point Method

Universitas Muhammadiyah Sidoarjo (UMSIDA) has 2 different Journals. The first is JEES (Journal English Educators Society), and the second is Pedagogia. JEES (Journal of English Educators Society) is one of the articles that use English, English is a global language, and its network is wider than Pedagogia. For pedagogia itself using the Indonesian language that is really familiar and easy to understand for us. Content In JEES more specific, because here only contains the research for writing competence. the style of content in Pedagogia contains more general and many types such as Speaking, Listening, Writing, and Reading. The aim of JEES itself is to describe the exchange students' self-efficacy on their writing competence. The subjects of this study were three students from Thailand. In a short, the subjects of this study have moderate level of writing self-efficacy. Each student shows diverse selection in writing stage. The first student had moderate self-efficacy, but he relatively can cope with the writing problems. In the second student, the writing self-efficacy was the highest one, and it was proven from her better writing result. In contrast to Pedagogia is to describe the English learning problems reported by the learners as non-English Department students. And to explain the difficulties faced by students in learning English and factors. This research uses qualitative approach with questionnaire instrument, observation, and video recording. Analysis of research data is done through three ways: data reduction, presentation of data, conclusions and verification. The results showed that the subject research has difficulty learning a variety of English. This happens due to factors different levels of English proficiency. All in all, which is more interesting among English-based articles or familiar ones? .“Megawati 2016a & Megawati 2016b”.
