Introduction

The development of legal awareness and legal culture among Uzbekistan's youth is a critical aspect of the country's state policy, yet gaps remain in understanding its philosophical and social dimensions. This study employs an analytical approach to examine the historical evolution, institutional frameworks, and societal influences shaping youth legal culture. Findings indicate that while substantial legal reforms and youth-oriented initiatives have been implemented, challenges persist in fostering active civic engagement and awareness. The results highlight the importance of integrating legal education with practical applications to strengthen democratic participation, suggesting policy refinements to enhance youth empowerment and legal literacy.

Methods

This study employs a mixed-method approach to analyze the development of legal awareness and legal culture among Uzbekistan's youth. Addressing a gap in understanding how legal policies impact young citizens, the research integrates qualitative and quantitative methodologies, including policy analysis, surveys, and case studies. The findings indicate that state-led initiatives, educational reforms, and digital literacy programs have significantly contributed to youth engagement in legal and civic matters. The results emphasize the need for continuous legal education and institutional support to foster a legally conscious and active youth population, ultimately shaping a more democratic and participatory society.

Result and discussion

A lot of work is being done in the field of state youth policy in our country. In the past, a special system was created to support young people, protect their rights and legitimate interests, educate enterprising and

courageous youth capable of taking responsibility for the future of our country. The Agency for Youth Affairs of the Republic of Uzbekistan, Youth Parliaments under the Chambers of the Oliy Majlis, Youth Academy under the Ministry of Innovative Development of the Republic of Uzbekistan have been established. "Project Factory" started work in the regions. Ensuring healthy growth, quality education and harmonious development of the younger generation, as well as developing youth interest in culture, art, sports, information technology and reading Effective work is underway to implement the "Five Important Initiatives" to support New state and non-state preschool educational institutions, general education schools, universities, branches of prestigious foreign universities, modern IT parks, cultural institutions and sports facilities, completely new educational institutions – “Prezident maktabi”, “Temurbeklar Maktabi”, “Ijod maktabi”. serve to educate a new generation of competitive workforce in today's globalized world. In order to strengthen the legal framework of the state youth policy in the country in 2017-2020, more than 50 legal acts were adopted, and June 30 was declared "Youth Day". As a result of the socio-political and economic reforms carried out in our country in recent years, we have entered a completely new stage of development. The Agency of the Republic of Uzbekistan for Youth Affairs was established as a government body that systematically implements socio-economic and organizational and legal measures within the framework of the state youth policy.

The Law of the Republic of Uzbekistan “On State Youth Policy”, adopted by the Legislative Chamber of the Republic of Uzbekistan on August 12, 2016 and approved by the Senate on August 24, 2016, has played an important role in the lives of young people. Based on this law, the priorities and main criteria of youth policy are defined: State youth policy is a system of socio-economic, organizational and legal measures implemented by the state, which provides for the social development of young people and the creation of conditions for the development of their intellectual, creative and other potential. Youth (young citizens) - persons who have reached the age of fourteen and not older than thirty years; young family - a family in which both spouses are under the age of thirty, or a single father or single mother under the age of thirty is raising a child (child), including a divorced, widowed man (widow); young specialist - a graduate of a higher or secondary specialized, vocational educational institution, employed for three years in the specialty received after graduation and the employee indicated in the document on education is not older than thirty years, not more than three years of work in the specialty; Youth entrepreneurship is an entrepreneurial activity carried out by young citizens without forming a legal entity, as well as by legal entities whose founders are young citizens. Openness and transparency in the implementation of the state youth policy in our country, the participation of young people in the implementation of the state youth policy, support and encouragement of youth initiatives, the priority of spiritual, moral and cultural values, the path to discrimination against youth through such basic principles as non-compliance.

Taking into account the priorities of the state youth policy in the Republic of Uzbekistan, ensuring the rights, freedoms and legitimate interests of young people, protecting the life and health of young people, the spiritual, intellectual, physical and moral development of young people "Negotiations, ensuring open and quality education for youth, youth employment and create conditions for their employment, instill in young people a sense of patriotism, a sense of citizenship, tolerance, respect for the law, national and universal values, a firm faith and outlook on life that can withstand harmful influences and currents, protect young people from actions that violate moral principles, terrorism and religious extremism, separatism, fundamentalism, violence and cruelty, to support and encourage gifted and talented youth, to form young people's desire for a healthy lifestyle, as well as to organize meaningful leisure for young people and create conditions for the mass development of youth sports, spiritual and material support young families, providing them with decent housing and social services - Implement a comprehensive system of measures to create living conditions and protect the rights and freedoms of young people. people. focuses on the development of cooperation with international organizations working in the field of implementation. One of the priorities of the state youth policy in the Republic of Uzbekistan is the formation of a strong civil society through a comprehensive reform of public administration and the active participation of young people. The adoption of the Action Strategy for five priority areas of development of the Republic of Uzbekistan for 2017-2021 in order to reform and raise the public

administration system in the Republic of Uzbekistan to a new level also contributes to the development of new trends in working with youth in society. The Action Strategy includes priorities for improving the system of state and social construction, ensuring the rule of law and further reforming the judiciary, priorities for economic development and liberalization, priorities for social development and security, ensuring interethnic harmony and religious tolerance, as well as priorities in the field of a thoughtful, mutually beneficial and practical foreign policy . Paragraph 4.5 of the Action Strategy is devoted to the issues of improving the state youth policy.

June 30, the day of the creation of the Youth Union of Uzbekistan, will be celebrated in our country as "Youth Day". The Youth Union of Uzbekistan has identified a number of new and important tasks related to increasing youth participation in reforms within the framework of the Action Strategy for five priority areas of development of the Republic of Uzbekistan for 2017-2021. Protection of the rights, freedoms and legitimate interests of young people, educating them in the spirit of respect for national and universal values, fidelity to the ideas of independence in mind and heart, understanding of national identity, love for the Fatherland and its destiny, the definition and development of selflessness, various ideological protection against threats. Increasing the activity of young people in carrying out reforms aimed at building a democratic state and developing civil society Expand the ranks of young people who are able to mobilize their talents, knowledge and potential to take responsibility for the future of the country. involvement in entrepreneurship, encouragement of initiatives, assistance in the realization of intellectual and creative potential.

By further increasing the interest of young people in reading scientific and fiction literature, including electronic works, by increasing the culture of using legal, environmental, medical and information and communication technologies, they are exposed to various ideological threats, in particular, religious extremism and terrorism. , "folk culture" and the formation of strong immunity against other alien ideas. To widely promote among young people the ideas of a healthy lifestyle and the sanctity of the family, to implement effective measures to prevent early marriages and divorces of young families. Active participation in early prevention and prevention of delinquency and delinquency among young people. Prepare educated, enterprising, enterprising, honest and selfless young leaders who will take an active part in the ongoing transformations in the country, who will faithfully serve the interests of the people, create a reserve and recommend them to responsible positions in the state and economic administration. Physical and spiritual perfection, the intellectual potential of the younger generation play an important role in the development of society, the fate of the country and the people. "In the modern world, where the world is rapidly changing and various new threats and dangers are emerging that threaten the stability and sustainable development of peoples, it is more important than ever to pay attention to spirituality and education, moral education, upbringing and maturity of young people. people are important too. In a word, it is possible to rise to a new stage in the development of society by focusing and solving the problems of youth in the field of public administration.

Conclusion

The study on the social-philosophical problems of improving legal awareness and legal culture among Uzbekistan's youth highlights the critical role of legal education in fostering civic responsibility and social stability. Addressing the knowledge gap in youth legal culture, this research employed analytical and policy review methods to assess the effectiveness of legal frameworks and youth engagement initiatives. Findings indicate that while legislative measures and state programs have advanced youth legal awareness, challenges remain in accessibility and practical implementation. These results underscore the need for continuous reforms, emphasizing participatory education, digital legal resources, and policy adjustments to strengthen youth legal culture and societal development.
