Tim Ahli Relawan Jurnal Indonesia

Pendahuluan

- Automatically (Mesin Cek Plagiasi)
- Manually (Cek judul, cek abstrak, cek kesimpulan)

Note:

Mesin Cek hanyalah alat, bukan penentu plagiasi atau tidaknya suatu dokumen. Penentu kembali ke tangan Editorial Board.

Berbagi, Giatkan Publikasi

Tata Cara Pakai Mesin Cek

1. Setting dulu filter (exclude Reference, exclude quotes, dan jumlah kata yang sama)
2. Setelah hasil cek keluar, perhatikan 5 (lima) hal:
 - a) Prosentase masing-masing URL;
 - b) Fulltext URL dengan kemiripan terbanyak;
 - c) Lokasi kemiripan di artikel yang di scan (di referensi/kutipan/judul/isi dst);
 - d) Lokasi kemiripan di fulltext URL pada laporan ((di referensi/kutipan/judul/isi dst);
 - e) Kategori tulisan pada fulltext URL pada laporan (pre-print/copy artikel/artikel yang terbit sesudahnya).

3. Exclude semua url yang merupakan :

- a. Lokasi artikel tersebut sendiri atau copy artikel atau artikel yang terbit sesudahnya (jika pengecekan setelah artikel terbit).
- b. Kesamaan terletak di Referensi atau Kutipan langsung yang sudah sesuai kaidah pengutipan.
- c. Kesamaan terletak pada suatu kalimat yang jamak dipakai (penyebutan lengkap Peraturan, kalimat baku, dst)
- d. Lokasi pada penyimpanan preprint (biasanya masih berupa laporan penelitian atau draft awal artikel).

4. Hanya cetak laporan jika sudah dilakukan langkah ke 3.

Jenis Mesin Cek Plagiasi

- Cloud (Akses)

Kelemahan : Mahal, ada batasan (Hal/periode)

Kelebihan : Mudah akses dimanapun.

Contoh : iParadigm products, unicheck, plagramme, checkforplagiarism, similarity check.

- Install (Software)

Kelemahan : Pemakaian terbatas di PC yang diinstall (kecuali versi multi), performa tergantung hardware pc yang diinstal.

Kelebihan : Murah (ada versi lifetime).

Contoh : Plagiarism Detector, Viper, plagiarismcheckerx, etc.

Similarity Check Crossref

Mesin : iThenticate

Database : Crossref, internet, publications.

Available Document Repositories

Documents will be compared against these repositories. You may select a subset of repositories by adjusting the [settings](#) for each folder.

Pre-Print

- Sage
(https://insights.sagepub.com/author_resources.php?folder_id=120)

Can I submit a manuscript that was published elsewhere?

No. Your manuscript must be unique and not published elsewhere. Prior publication of datasets or deposition in a pre-print server do not constitute prior publication.

Preliminary data appearing in my paper was published in a scientific poster. Does SAGE Publishing consider this to be prior publication?

No, we don't consider publication of data in a scientific poster to constitute prior publication.

Berbagi, Giatkan Publikasi

Pre-Print

- Elsevier (<https://www.elsevier.com/editors-update/story/publishing-ethics/clarification-of-our-policy-on-prior-publication>)

Elsevier Policy on prior publication

Elsevier welcomes submissions from authors and will consider these for publication where work has not previously been published and is not under consideration for publication elsewhere. Elsevier does not view the following prior uses of a work as prior publication:

- Publication in the form of an abstract
- Publication as an academic thesis
- Publication as an electronic preprint

Some journals may also consider for publication works that have been previously published as part of a published lecture. Further information on each journal's prior publication policies is included within the journal's Guide for Authors.

Berbagi, Giatkan Publikasi

Pre-Print

- Elsevier 2 (<https://www.elsevier.com/authors/journal-authors/policies-and-ethics>)

- **Multiple, redundant or concurrent publication:** An author should not in general publish manuscripts describing essentially the same research in more than one journal or primary publication. Elsevier does not view the following uses of a work as prior publication: publication in the form of an abstract; publication as an academic thesis; publication as an electronic preprint. Information on prior publication is included within each Elsevier journal's Guide for Authors. Note: *Cell Press* ↗ , *The Lancet* ↗ , and some society-owned titles have different policies on prior publication. Information on these is available on the journal homepage.

- Login https://app.ithenticate.com/en_us/login

A screenshot of the Ithenticate login interface. The page has a light gray background with a white central box. At the top of the box is the word 'Login' in a bold, dark gray font. Below this, there are two input fields: 'Email *' and 'Password *'. The 'Email *' field is a simple white box with a thin gray border. The 'Password *' field is also a white box with a thin gray border, and to its right is a blue link that says 'Forgot password'. Below the password field, there is a checkbox labeled 'Remember me' and a blue button labeled 'Login'.

Check to exclude quoted text from comparison of documents submitted in this folder.

Exclude quotes

Check to exclude bibliography from comparison of documents submitted in this folder.

Exclude bibliography

Check to exclude phrases associated with this folder (or with your account) from comparison of documents submitted in this folder.

Exclude Phrases

Check to exclude match instances from reports that are below the set word count.

Exclude Small Matches

Set match exclusion threshold:

Exclude all match instances below the set threshold from reports.

Word Count words

Check to exclude sources below the set thresholds from reports.

Exclude Small Sources

Exclude Sources by:

Based on a source's total match percentage or match word count.

Word Count words

Percentage %

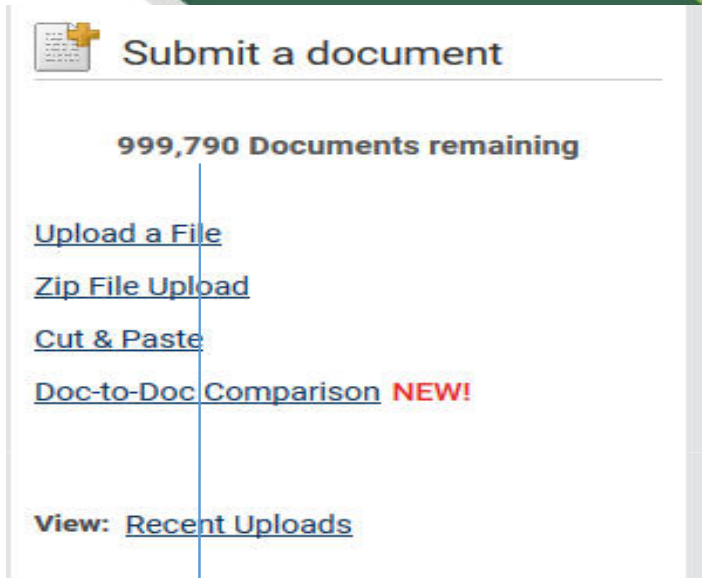

1. Perlu diingat meski kita exclude quotes atau bibliography. Untuk tulisan dengan Bahasa Indonesia tidak terexclude karena sistem membaca "References" baru diexclude. Bukan daftar pustaka atau yang lain.
2. Sedangkan untuk quotes jika diakhiri dengan running note akan terbaca sebagai quotes.

4. Upload file

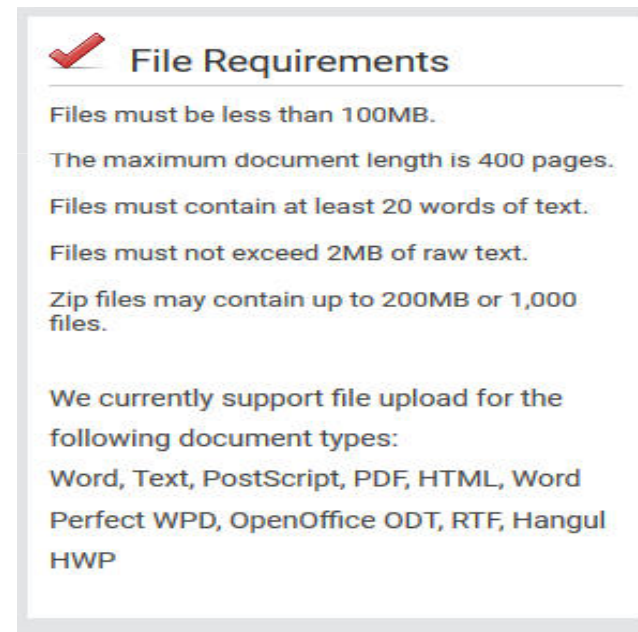

Ada tiga macam cara upload file (Sesuai Kebutuhan).

1. Satu persatu
2. Satu folder langsung (jika memang hanya untuk cek satu author saja)
3. Pindah teks (Cut and Paste)

UTILIZATION INTERVAL TYPE-2 FUZZY INFERENCE SYSTEM IN SHORT TERM
LOAD FORECASTING NEW YEAR CELEBRATION HOLIDAY
(CASE STUDY: JAVA – BALI ELECTRICAL SYSTEM)
Jamaaluddin^{1,2}, Imam Robandi¹

- 1) Department of Electrical Engineering, Institut Teknologi Sepuluh Nopember
- 2) Universitas Muhammadiyah Sidoarjo Indonesia.
E-mail address: jamaaluddin15@mhs.ee.its.ac.id
E-mail address: robandi@ee.its.ac.id

Abstract

Celebration of New Year In the Indonesian is constituted the one of the visit Indonesian's tourism. This event course changes the load of electrical energy. The electrical energy providers that control and operation of electrical in Java and Bali (Java, Bali Electrical System) is required to be able to ensure continuity of load demand at this time, and forecast for the future. Short-term load forecasting very need to be supported by computational methods for simulation and validation. The one of computation's methods is *Interval Type – 2 Fuzzy Inference System (IT-2 FIS)*. it is appropriate to be used in load forecasting because it has the advantages that very
